

AI SERVICES FOR FOUNDERS AND SMES

AI that *runs the work* — with humans accountable.

Productised desks for founders and SMEs: ops, pipeline, books, and content. Humans set the brief; agents handle the grind; you decide and ship.

CONTENT

Content Desk

AI operating desks — *not another chat window.*

HyphosXAI sells productised desks that help run the business: ops, pipeline, books, and content. Humans configure and oversee. External actions follow the approval process agreed in your order. Following that process does not mean a person sees every action.

Fixed-scope packs. Clear outcomes. An agreed approval process for external actions. Sprint Pilot is the low-commitment way to prove one workflow first.

THE NAME

Named for a web that holds: many nodes, no single brittle hub.

HOW IT WORKS

Scope. Configure. Deliver.

We configure, oversee, and hand over. External actions follow the approval process agreed in your order. Following that process does not mean a person sees every action.

01

Scope

Pick one workflow or desk.
Agree success criteria and the tools you already use.

02

Configure the desk

We set up the agent on our AI stack, built on xAI's Grok models — connectors, routines, and brand or process rules.

03

Deliver with human oversight

Agents handle the grind. We stay accountable for the desk. External actions follow the approval process agreed in your order. Following that process does not mean a person sees every action.

Prove value on one workflow — *then run the desk.*

SPRINT PILOT

£1,500

flat · 30 calendar days

Sprint Pilot: limited slots.

A fixed 30-calendar-day proof on one workflow — see the desk working before you commit ongoing.

We scope one workflow from our desk catalogue, configure it on our AI stack, and run with weekly check-ins to a clear success definition. At the end you get a decision pack: continue on a Desk, adjust, or stop.

One workflow

Weekly check-
ins

End-of-sprint
decision pack

£750

CREDITED TO A DESK

If you then take a Desk, £750 (half of the £1,500) is credited to that Desk's setup fee only, once, if the Desk order is signed by the end of the 14th calendar day after the Sprint end date. The Sprint end date is day 0. Signing during the Sprint also qualifies.

The Sprint Pilot fee is not refundable once the kickoff meeting has been held, or once the start date stated in the order has been reached, whichever is first. Full terms: hyphosxai.com/terms.

ONGOING OPENER

Founder Desk

£1,200 setup · £999/mo

Founder Desk is the default ongoing opener for owner-operators who need weekday leverage. Human cover is UK weekdays, 09:00 to 17:30 UK time, bank holidays in England and Wales off. Automated routines may run outside those hours. This does not mean a person approves every action during those hours.

Fixed-scope packs. *Clear outcomes.*

An agreed approval process for external actions.

OPS · OPENER

Founder Desk

£999/mo £1,200 setup

An AI ops agent for the founder who needs a sharper weekday. Diary coordination, inbox triage drafts, meeting prep, and a weekday morning brief, with light routines for remind, check, and summarise. Our team configures and oversees the desk.

For solo founders and owner-operators who live in email and calendar.

Human cover is UK weekdays, 09:00 to 17:30 UK time, bank holidays in England and Wales off. Automated routines may run outside those hours. This does not mean a person approves every action during those hours. Three paid calendar months minimum, from the desk start date. Sprint days do not count.

Not legal advice · not unsupervised posting

SALES

Pipeline Desk

£1,199/mo £1,500 setup

Sales assist that keeps outreach and follow-ups moving — drafts ready, pipeline visible. Outreach drafts, follow-ups, weekly pipeline brief.

For founders and small sales teams who need consistent outbound without a full SDR bench.

Pipeline Desk: volume capped per the agreement.

No guaranteed meetings booked

FINANCE

Books Copilot

£1,199/mo £1,800 setup

Xero-aware finance assist for cleaner books and fewer month-end surprises.

For SMEs already on (or moving to) Xero who want tighter day-to-day books hygiene.

Books Copilot: £1,199/mo, or £1,299/mo if oversight is over 8 hours. Xero Custom Connection ~£6/mo (incl. VAT) pass-through (separate).

Not accountancy sign-off or tax advice

CONTENT

Content Desk

£899/mo £900 setup · 8 drafts/mo

Brand-locked drafts for X, LinkedIn, and blog, for you to approve before posting.

For founders and lean marketing owners who need consistent drafts under clear brand rules.

No unsupervised live posting · no ads management

All desk and Sprint prices in GBP. No VAT is charged (HyphosXAI Ltd is not VAT registered). Every pack includes an agreed approval process for external actions. Our services are for businesses only.

ALSO AVAILABLE · WEBSITES

Professional websites still available — *Starter, Growth, and Enterprise.*

SECURITY

Configured and overseen by our team.

Desks are configured and overseen by our team, with access limited to the tools and permissions you authorise. External actions follow the approval process agreed in your order. Following that process does not mean a person sees every action.

Ask us directly about scopes, connectors, and how your engagement is run.

Humans configure and oversee

We configure, oversee, and hand over.

Agreed approval process

Every pack includes an agreed approval process for external actions.

Human delivery accountability

Agents handle the grind. We stay accountable for the desk.

START WITH A SPRINT PILOT

Book a Sprint Pilot. *Or ask about a desk.*

Bounded proof on one workflow — £1,500 flat for 30 calendar days. Clear success criteria. A decision pack at the end — continue on a Desk, adjust, or stop.
